

## Caucasian and Express.

57<sup>th</sup> Anniversary (this **N.Y.**) after the name signifies that the time paid for has already or is about to expire. Persons thus notified should renew immediately if they wish their paper continued. We cannot bear credit business for subscription.

## LOCAL AFFAIRS.

## NEW AGENTS.

A. Jones and Dr. Wm. E. Finch, Oak Grove, Vt., Angels, F. M., Dover.

## PLANO TUNING.

Prof. L. Travers is prepared to give lectures on the plan at homes of the people. Piano-tuning promptly attended to. Leave orders at Elmer's book store.

## TO FARMERS.

Armstrong, Wasson & Co., have a good assortment of Grain Drills and Cider Mills after the celebrated Wheat Screen, Carter Harnesses, &c. Call and leave your orders with them.

## BAPTIST GENERAL ASSOCIATION.

The Ministers' and Deacons' Conference, convened with the Baptist General Association of Missouri, commenced in the Baptist Tabernacle in this city, August 8th. Rev. Y. R. Price, of Howard county, was chosen chairman, and Rev. G. W. Robey, of Marion, Secretary. About sixty Ministers, and a large number of Deacons, were present, and the first day, there were delivered by the speakers a number of visitors from other States. Among them we mention the names of Dr. J. C. Jackson, of New York; Dr. W. H. Burroughs, of Richmond, Virginia; Dr. Palmer, of Alabama; and Dr. Pease, of Mississippi. The Conference was opened with prayer by Rev. Y. R. Price.

Rev. A. Annual Session was presided over by Rev. Y. R. Price, from 1st, John B. Price, 2nd, Dr. C. H. Williams, 3rd, W. B. Hodge, 4th, Dr. A. Palmer, and Dr. A. P. Williams. The subjects elicited considerable discussion, all of which was conducted with a spirit of frankness and freedom. The following were the principal topics of interest:

## THE SOUTHERN.

New Session.—By notice it will be seen that Mr. Carruth is engaged to furnish services to the Convention, which will be opened in the Tabernacle on the 11th inst. of this month. Mr. Carson is a distinguished graduate of the State University, who has taught both in Cincinnati, and in this country, and is every way competent to conduct a session of his kind.

FARMERS' BANK.—Send the names of the bank to-day's paper.

—LAW.—See notice of Messrs. Wright & Metcalf, in this paper.

COUSINS.—We have several contributions on hand, which we will publish as soon as space will allow. We are anxious that our friends will be interested.

SL.—Deterred not to be blind, Sanders is taking photographs at \$1 per shot. The cheapest, however, as low as some can be made, and better than all others.

WANTED.—An agent to manage the play of Lexington for life and campaigns of General Lee. Address, J. D. PAGE, 114 High St., Lexington, Ky.

The Circular—We would say to our readers that it is clear that clergymen are willing, they may consider it duty, that no cause has occurred here, and we have no more to say. Our friends over there, the Collegiate can begin its September.

STATE UNIVERSITY.—The annual symposium will be held at the University of Louisville on Saturday evening, October 1st.

BASIC KEEPS.—Our old friend, Mr. Thorne, whom everybody knows, and whom everyone wishes to be fully competent, will do any work in the line, and do it well. See notice elsewhere.

FINE PICTURES.—Good pictures—Drawn taking card photographs at \$1 per card, with one or two prints on the card. Fine—good—perfect. It is determined to have the best in this line, under the direction of the worker for the week.

THE CIRCUS.—Herbards begin to lay claim quite boldly. The men who have got into the picture, will lay claim to it, and after the like pattern. A gentleman whom we have conversed with, says it has taken but once in twenty-five years to run on or about the 12th August. We hope the present year may not be made an exception.

AGAPE MEETING.—The annual August meeting of the Christian church, which was commenced last night, and is expected to be continued for two weeks. It is expected that the following friends will be present—Dr. George G. Geer, Dr. J. C. Gresham, Dr. George Geer, and perhaps others. Large preparations have been made to accommodate those who may attend.

LECTURE.—Major Matt. R. Cullen of St. Louis, will be here about 12th, and will deliver a lecture, as we understand, to, and before the Southern officers. A note from Mr. Cullen, however, requesting us to notice the place, and time, and date, and place, with particularities, was received, but, by some mistake, the writer failed to include the same, in consequence of which we are unable to state precisely the date of the lecture.

THE EXPRESS RAILROAD.—We have not a word, in addition to what we gave last week, to the story of the United States Express, except that the members of the Board did not concur in a vote to sell it. It is to be hoped that the following Friends will be present—Dr. George Geer, and perhaps others. Large preparations have been made to accommodate those who may attend.

THE CIRCUS.—Herbards begin to lay claim quite boldly. The men who have got into the picture, will lay claim to it, and after the like pattern.
